REMARKS

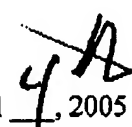

During a recent telephone conference Examiner Hayes suggested that applicant's claims would be allowable if further amended to include the rectangular configuration of the housing coupled with the fact that the discharge arms are located at the corners of said rectangle. The present amendment conforms the claims to the Examiner's very helpful suggestion. It is therefore respectfully submitted that the claims as now presented are in condition for favorable action and allowance.

Respectfully submitted,

MICHAEL A. O'NEIL, P.C.
